

**"Unhooked
Recovery saved
my life. The
staff was
amazing. They
understood the
darkness of
addiction
because most
of them are in
recovery
themselves."

**WE UNDERSTAND,
WE'VE BEEN THERE**

CHANGE IS POSSIBLE.

MEDICAL DETOX

Experiencing withdrawal symptoms can be one of the most frightening times of an individual's life. Unhooked wants to eliminate the fears behind the detoxification process. Individuals will be under the close supervision of our medical and nursing staff to withdrawal the individual from all chemicals and manage any medical needs that arise during their stay.

RESIDENTIAL CENTER

The Unhooked residential program teaches independent living, social and communication skills to maximize the person's ability to live independently from active addiction. This is achieved by Individual, Family and Group Counseling. Unhooked believes that residential treatment is a great foundation for those afflicted with substance use-disorders.

OUTPATIENT CENTER

Unhooked Recovery's outpatient services provide a comprehensive look into individuals who struggle with substance use disorder. The Intensive Outpatient program (IOP) uses a matrix model which incorporates Early Recovery Skills, Relapse Prevention, Family Education, and Social Support. Other benefits include Individual and Family sessions, random urine testing and relapse analysis.

THE HOPE...

The hope is to provide an affordable, comfortable, and safe environment that is monitored by competent, caring and compassionate professionals. Our sole purpose at Unhooked is to support, encourage and guide those still suffering.
